

## KEVIN BULMER: SELECTED QUOTES

"I have worked three years with Kevin Bulmer on various promotions. I have always found his word to be honest and with integrity at the highest level. He impressed me with our dealings by caring about the end result not only for his business but for ours (which is very rare in today's business climate). I also found him at all times with great appearance and a smile on his face no matter what the request or the situation at hand. His attitude was always, without exception, 'let's deal with it and find a solution.'

"I would not hesitate in recommending Kevin for any position that he would have interest in. The company or individual that has Kevin involved in any capacity with their company or project will be very fortunate. He will be an absolute asset for anyone he represents."

"Kevin Bulmer writes about his hometown, his own past, and their shared history, describing with a clear eye the place that shaped his songs. He writes and performs with undeniable passion."

David Francey

"As you do so often on the radio for various groups, you became a crusader for the cause and made it your own. It is a delight to have a radio personality who does not just read the script."
